

International Chemicals Engineering (I.C.E) offer a range of load cells specifically designed for the industrial gas odorant sector. In partnership with the market leader, Mettler Toledo, our range is designed with safety and quality in mind. All components are IEC Ex rated and resistant to the elements with a minimum IP65 rating.

Our intrinsically safe load cells provide site operators the ability to precisely measure and monitor gas odorant storage volume and consumption rates while assisting in re-order alarm points.

Our standard packages come complete with the following, however can be customised to site requirements:

Mettler Toledo IND226X Indicator with remote output options as standard

Mettler Toledo IND226X Battery Pack, NiMH Battery for hazardous area

Mettler Toledo Battery charger (for use in safe area)

Mettler Toledo 4100 Platform Scale, available in two sizes: 1500mm x 1500mm and 900mm x 900mm

For further product specifications or enquiries, please contact us at info@iceng.net.au or 03 9792 4844.
