

MERCAPTAN ODOUR CONTROL

International Chemicals Engineering (I.C.E) offer a range of odour control products specifically designed for the Gas Odorant Sector. Introducing Mercaptan Odour Neutraliser (MON) & Mercaptan Tool Wash (MTW), designed with safety and the environment in mind.

Our range of odour control products provide site operators the ability to safely neutralise odorant vapours & impregnated tools.

I.C.E. offer a range effective odour neutralisers which are manufactured by Ecosorb, an environmentally sensitive blend of essential oils: Mercaptan Odour Neutraliser (MON) is available in 5L and 20L pails. Simply decant into a spray bottle and spray directly into the odorous air to immediately eliminate lingering mercaptan odour.

Mercaptan Tool Wash (MTW) is available in 1L and 5L pails. A specialised additive formula : Simply pour MTW into a small container and rinse tools to eliminate the mercaptan odours.
