

# MERCAPTAN SPILL RESPONSE

**International Chemicals Engineering (I.C.E) offer a range of spill response equipment specifically designed for the Gas Odorant Sector. Our range of custom designed spill kits have been designed with operator safety in mind. I.C.E also offer emergency response assistance for mercaptan incidents & the ERC (Emergency Response Cabinet) to confine leaking vessels.**

**Our range of Spill Kits & ERC provides site operators with confidence & support to handle a gas odorant leak.**

**I.C.E. offer a range of Spill Response Equipment in case of a gas odorant incident:**

**Small Spill Kits: 60L Hazdrum, instructions, PPE, absorbant, tools, neutraliser**

**Large Spill Kits: 200L Hazdrum, instructions, PPE, absorbant, tools, neutraliser**

**Emergency Response Cabinet (ERC): Available to be dispatched Australia wide to contain a odorous or leaking gas odorant vessel or injection system. Short term rental available for the ERC.**

**Engineering Service & Advice: I.C.E. are the Australia Pacific leaders in handling, supplying, transporting & transferring gas odorant. Our team of Engineer's are available to assist with Gas Odorant incidents.**

**For further product specifications or enquiries, please contact us at [info@iceng.net.au](mailto:info@iceng.net.au) or 03 9792 4844.**
