

VERSATILITY IN MEASUREMENT

pH/mV METER / SIMULATOR SMH-2

- ❑ **M**ode selection for pH and mV simulation.
- ❑ **H**igh impedance electrode simulation.
- ❑ **BNC** sockets for coaxial cable connections.
- ❑ **I**deal to test and calibrate electrodes and controllers.
- ❑ **S**weep only part of the pH or mV range for accurate testing of set points.
- ❑ **U**se the pH/mV meter and simulator together for efficient trouble shooting.
- ❑ **T**he 9 volt battery is easily replaced in a separate compartment at the back of the simulator.
- ❑ **L**o - battery indicator.
